Subject: Abusing RAWA's name by certain Afghan nationals

Dear Sir,

In the last few months we have discovered that some Afghans in the European countries, US and Canada have introduced themselves to the concerned authorities as people affiliated with RAWA in order to get asylum.

Recently The Royal Netherlands Embassy was kind enough to bring the matter directly to our notice.

Thanking for your government to its positive approach to RAWA, we respectfully inform you hereby that RAWA cannot take any responsibility regarding those Afghan nationals in your country who falsely claim of having connection with RAWA, unless you possess a written confirmation from us about them. We are particularly concerned about the elements belonging to the former pro-Soviet puppet governments, their notorious KHAD, and the fundamentalist criminals who will sneak their way to your land by portraying themselves as members of RAWA. That is inter alia a disgusting attempt to defame RAWA that not even a single of its members has ever tried to give up anti-fundamentalist struggle and migrate to Europe and America.

Please note that you may always count on our cooperation regarding the above-mentioned problem.

Availing the opportunity, we would like to kindly urge your related authorities through you to give us brief information about any/some people who might have already been accepted as refugees on the basis of their alleged affiliation with RAWA. We will let you know after promptly going through the information.

Thanks for your consideration.

Sincerely yours,

For foreign relations committee of RAWA
