People fled to Egypt

18,545

People fled to CAR

37,937

People fled to Ethiopia

4,295,092

People internally displaced

Sources of displacement data:
IDPs, IOM DTM; refugees, UNHCR

This is a document reporting on the severity of the protection impacts on the civilian population as a result of ongoing conflict in Sudan. Clashes between the Sudanese Armed Forces (SAF) and Rapid Support Forces (RSF) erupted on 15 April 2023 and are now in their twenty-fourth week.

Deaths and Injuries:

- On 8 September, the Armed Conflict Location and Event Data (ACLED) project reported that at least 7,500 people have been killed due to the conflict. Actual figures may be higher with communications challenges and ongoing violence inhibiting systematic reporting.
- Since the fighting started, 19 humanitarian workers have been killed and 29 injured.
- As of 17 September, the Joint Human Rights Office (JHRO) has received credible reports of 49 incidents of sexual violence affecting at least 101 survivors (80 women, 20 children and one man). The actual prevalence of conflict related sexual violence is no doubt significantly higher, as ongoing conflict, lack of access to services, intermittent communications capacity and community stigma inhibit reporting.

Impact on Civilians:

- In Khartoum, clashes between SAF and RSF continued during the reporting period. Of the estimated 2,911,641 people displaced from Khartoum, approximately 60,100 IDPs have sought refuge in other locations across Khartoum state while 2,851,541 have fled to other states across Sudan.
- In River Nile, an estimated 512,755 IDPs from Khartoum are reportedly seeking shelter with host community members or in rented accommodation across across Abu Hamad, Ad Damar, Al Buhaira, Al Matama, Atbara, Barbar, and Shendi localities.
- In East Darfur, IOM DTM estimates 500,515 IDPs to be predominately sheltering among the host community, many reportedly fleeing the ongoing conflict in South Darfur. IDPs are present in Abu Jabrah, Abu Karinka, Ad Du'ayn, Adila, Al Firdous, Assalaya, Shia'ria, Yassin and Bahr Al Arab localities.
- In South Darfur, an estimated 490,153 individuals are predominately displaced from other areas within South Darfur, with ongoing clashes in Nyala reported to have caused widespread damage and destruction of civilian infrastructure. IDPs are reported to be sheltering across Al Wihda, As Salam, As Sunta, Beliel, Buram, Damso, Ed Al Fursan, Kas, Kateila, Kubum, Mershing, Nitega, Nyala Janoub, Rehaid Albirdi, Sharg Aj Jabal, Tulus and Um Dafoug localities.
- In Northern State, an estimated 364,378 IDPs, all reportedly displaced from Khartoum, are sheltering across Ad Dabbah, Al Burgaig, Al Golid, Delgo, Dongola, Halfa, and Merowe localities. Restrictive visa processes continue to inhibit cross-border movement to Egypt for those IDPs intending onward travel.
- In North Darfur, an estimated 329,645 displaced people are sheltering with the host community, in camps and gathering sites across Al Fasher, Al Koma, Al Lait, Al Malha, As Serief, At Tawisha, Dar As Salam, Kebkabiya, Kelemando, Kernoi, Kutum, Melit, Saraf Omra, Tawila, Um Baru, and Um Kadadah localities.
- In Sennar, an estimated 327,091 people displaced from Khartoum are sheltering with host families and in rented accommodation across Abu Hajar, Ad Dali, Ad Dinder, As Suki, Sennar, Sharg Sennar, and Sinja localities.
- In Al Jazirah, IOM DTM field teams report 298,674 IDPs predominately living among the host community but with an increasing proportion sheltering in public

buildings across Al Hasahisa, Al Kamlin, Al Manaqil, Al Qurashi, Janub Aj Jazirah, Medani Al Kubra, Sharg Aj Jazirah, and Um Algura localities.

- In Central Darfur, an estimated 287,095 individuals are displaced from other areas in Central Darfur, West Darfur, South Darfur and North Darfur. IDPs are predominately sheltering with relatives or in ad hoc gathering sites, across Azum, Gharb Jabal Marrah, Shamal Jabal Marrah, Um Dukhun, Wadi Salih, Wasat Jabal Marrah, and Zalingi localities.
- In White Nile, 286,238 IDPs are reportedly sheltering with host community members, in camps, and in public buildings across Ad Diwaim, Aj Jabalain, Al Gitaina, As Salam/Ar Rawat, Guli, Kosti, Rabak, Tendalti, and Um Rimta localities.
- In Gedaref, an estimated 252,824 IDPs displaced from Khartoum are sheltering across Al Butanah, Al Fao, Al Fashaga, Al Galabat Al Gharbyah-Kassab, Al Mafaza, Al Qureisha, Ar Rahad, Basundah, Gala'a An Nahal, Galabat Ash-Shargiah, Madeinat Al Gedaref, and Wasat Al Gedaref. IDPs are predominately sheltering in informal hosting arrangements and in rented accommodation.
- In multiple states, displaced populations of fewer than 150,000 people were reported by IOM DTM. Affected states include: Red Sea (108,420 displaced individuals); Kassala (102,777 displaced individuals); West Darfur (100,335 displaced individuals); North Kordofan (90,168 displaced individuals); South Kordofan (84,899 displaced individuals); Blue Nile (52,794 displaced individuals); and, West Kordofan (46,231 displaced individuals). In most states outside Darfur, the majority of the IDP caseload originates from Khartoum state.
- People trapped in the conflict zones continue to experience severe shortages of food, fuel, and water, amid dramatic increases in the prices of basic goods and commodities, and persistent electricity outages.

Medical Facilities:

- The WHO Surveillance System for Attacks on Health Care (SSA) indicates that 56 attacks on health care have been reported since the onset of the violence on 15 April, of which: 36 attacks impacted facilities; 23 attacks impacted personnel; 16 attacks impacted supplies; eight attacks impacted transport; seven attacks impacted patients; and, six attacks impacted warehouses. The attacks resulted in 11 deaths and 38 injuries.
- About 70% - 80% of hospitals in conflict-affected states are non-functional because of ongoing attacks combined with insecurity, shortages of medical supplies, and lack of cash to meet operational costs and salaries. Functioning hospitals and clinics in non-conflict-affected states are becoming overwhelmed due to increased demand for their services from IDPs and are also grappling with severe shortages of vital medical supplies, including life-saving medicines, critical medical equipment, and healthcare professionals.

Public Institutions:

Looting, occupation of and attacks on public institutions continued to be reported (this is not an exhaustive list and the data is based on available information):

- In Khartoum: Khartoum International Airport, Central Bank, Specialized Children Hospital, Fedail hospital, Bahri public market, Al Huda penitentiary, Kober Prison, Saudi Cultural Building, Maternity Hospital in Omdurman, Afra Mall, Islamic Solidarity Bank, United Capital Bank, Khartoum Industrial Zone, Omdurman market, Al Hawyaat Customs Station in Soba, Baraa Hospital for Children, Corps of Engineers, Bank of Khartoum HQ and branches, Souk Libya, Zakat Office in Jabra, Al Amal Hospital, Qarri Free Zone, Higher Academy for Strategic and Security Studies, Jabra Hospital, Ahmad Qasim Hospital, East Nile Hospital, Al-Baraka Bank, Episcopal Anglican Church, Al Ahfad University, Dar Alsalam courthouse, Khartoum courthouse, Land Registration Office, National Authority for Radio and Television, Saudi Sudanese Bank, Durra Medical Complex in Khartoum North, Al Oshara market, Al Ahfad University, El Neelain University, Chinese Hospital, Al Muwaliah market, Gold market, Al Neelain University, Al Haji Nour Al Shahid mosque, Al Taqwaa mosque, Haj Al Safi Teaching Hospital, Al Waladein Charitable Eye Hospital, Ministry of Minerals, Omdurman courthouse, Omdurman Technical High School, Al Noor Institute for
