

Freedom on the Net 2025

header1 Key Developments, June 1, 2024 – May 31, 2025

Uzbekistan remained one of the world's worst environments for internet freedom due to arbitrary arrests of individuals who criticize the government online, routine website blocking, and excessive surveillance practices. In recent years, the government has ramped up its persecution of people who supported or participated in 2022 protests against a plan to downgrade Karakalpakstan's autonomous status.

- In December 2024, President Shavkat Mirziyoyev signed the Law on Telecommunications, which expanded the remit of the Ministry of Digital Technologies and outlined the creation of a separate, nominally independent Telecommunications Regulatory Agency. The new agency was formally established in August 2025, after the coverage period (A5).¹
- According to a January 2025 publication from the Supreme Court of Uzbekistan, 1,389 online items deemed to promote extremism and terrorism had been banned in

Uzbekistan, up from 800 in January 2024. The materials include websites, which are blocked, as well as social media pages and groups (B1, B2, and B3).²

- In the first 10 months of 2024, over 30,000 people were prosecuted under defamation and insult charges in the Administrative Code, with several cases concerning online speech. More than 200 of those prosecuted were reportedly sent to prison (C3).³
- In April 2025, a court in Nukus, the capital of Karakalpakstan, sentenced Rinat Uttambetov to 2 years and 3 months in prison for “disseminating materials that threaten public security” and “encroaching on the constitutional order” in relation to a video he allegedly shared on Telegram during the Karakalpakstan protests in 2022. He was extradited from Kazakhstan, where he had been arrested in April 2024 (C3).⁴
- In February 2025, Mustafa Tursynbayev, a blogger from Karakalpakstan who was sentenced to 5 years in prison on extortion charges in a closed March 2024 trial, died in a Tashkent hospital. The Prosecutor’s Office said a section of a wall had fallen on him at a construction site, where he had been working as a prisoner (C3 and C7).⁵

header2 Political Overview

While reforms adopted since President Shavkat Mirziyoyev took office in 2016 have led to improvements on some issues, Uzbekistan remains an authoritarian state. No opposition parties operate legally. The legislature and judiciary effectively serve as instruments of the executive branch, which initiates reforms by decree, and the media are still tightly controlled by the authorities. Reports of torture and other ill-treatment persist, although highly publicized cases of abuse have resulted in dismissals and prosecutions for some officials, and small-scale corruption has been meaningfully reduced.

This report has been abridged for Freedom on the Net 2025 due to [ongoing budget constraints](#). Please consider making a [donation](#) to support future editions of this vital resource.

For additional background information, see last year’s [full report](#).

A Obstacles to Access

A1 1.00-6.00 pts0-6 pts

Do infrastructural limitations restrict access to the internet or the speed and quality of internet connections?	5.005 6.006
--	----------------

A2 1.00-3.00 pts0-3 pts

Is access to the internet prohibitively expensive or beyond the reach of certain segments of the population for geographical, social, or other reasons?	2.002 3.003
---	----------------

Score Change: The score improved from 1 to 2 because the cost of mobile broadband declined, and discrepancies in coverage between urban and rural areas narrowed.⁶

A3 1.00-6.00 pts0-6 pts

Does the government exercise technical or legal control over internet infrastructure for the purposes of restricting connectivity?	3.003 6.006
--	----------------

A4 1.00-6.00 pts0-6 pts

Are there legal, regulatory, or economic obstacles that restrict the diversity of service providers?		1.001 6.006
A5 1.00-4.00 pts0-4 pts		

Do national regulatory bodies that oversee service providers and digital technology fail to operate in a free, fair, and independent manner?		0.000 4.004
--	--	----------------

B Limits on Content

B1 1.00-6.00 pts0-6 pts		
Does the state block or filter, or compel service providers to block or filter, internet content, particularly material that is protected by international human rights standards?		3.003 6.006
B2 1.00-4.00 pts0-4 pts		
Do state or nonstate actors employ legal, administrative, or other means to force publishers, content hosts, or digital platforms to delete content, particularly material that is protected by international human rights standards?		1.001 4.004
B3 1.00-4.00 pts0-4 pts		
Do restrictions on the internet and digital content lack transparency, proportionality to the stated aims, or an independent appeals process?		0.000 4.004
B4 1.00-4.00 pts0-4 pts		
Do online journalists, commentators, and ordinary users practice self-censorship?		1.001 4.004
B5 1.00-4.00 pts0-4 pts		
Are online sources of information controlled or manipulated by the government or other powerful actors to advance a particular political interest?		2.002 4.004
B6 1.00-3.00 pts0-3 pts		
Are there economic or regulatory constraints that negatively affect users' ability to publish content online?		0.000 3.003
B7 1.00-4.00 pts0-4 pts		
Does the online information landscape lack diversity and reliability?		2.002 4.004
B8 1.00-6.00 pts0-6 pts		
Do conditions impede users' ability to mobilize, form communities, and campaign, particularly on political and social issues?		2.002 6.006

C Violations of User Rights

C1 1.00-6.00 pts0-6 pts

Do the constitution or other laws fail to protect rights such as freedom of expression, access to information, and press freedom, including on the internet, and are they enforced by a judiciary that lacks independence? | 0.000
6.006

C2 1.00-4.00 pts0-4 pts

Are there laws that assign criminal penalties or civil liability for online activities, particularly those that are protected under international human rights standards? | 1.001
4.004

C3 1.00-6.00 pts0-6 pts

Are individuals penalized for online activities, particularly those that are protected under international human rights standards? | 1.001
6.006

C4 1.00-4.00 pts0-4 pts

Does the government place restrictions on anonymous communication or encryption? | 1.001
4.004

C5 1.00-6.00 pts0-6 pts

Does state surveillance of internet activities infringe on users' right to privacy? | 1.001 6.006

C6 1.00-6.00 pts0-6 pts

Does monitoring and collection of user data by service providers and other technology companies infringe on users' right to privacy? | 0.000
6.006

C7 1.00-5.00 pts0-5 pts

Are individuals subject to extralegal intimidation or physical violence by state authorities or any other actor in relation to their online activities? | 1.001
5.005

C8 1.00-3.00 pts0-3 pts

Are websites, governmental and private entities, service providers, or individual users subject to widespread hacking and other forms of cyberattack? | 2.002
3.003

Score Change: The score improved from 1 to 2 because there were fewer reported cyberattacks against media outlets compared to previous coverage periods.
