Children and armed conflict

Report of the Secretary-General

I. Introduction

1. The present report, prepared following consultations and covering the period from January to December 2023, is submitted pursuant to Security Council resolution [2427 \(2018\)](#). The report includes trends regarding the impact of armed conflict on children and information on violations committed, as requested by the Council in its resolution [1612 \(2005\)](#) and subsequent resolutions.¹ Where possible, violations are attributed to parties to conflict and the annexes to the present report include a list of parties engaging in violations against children, namely the recruitment and use of children, the killing and maiming of children, rape and other forms of sexual violence perpetrated against children, attacks on schools, hospitals and protected persons in relation to schools and/or hospitals,² and the abduction of children.

2. The information contained in the present report was vetted for accuracy by the United Nations. Where information is not verified, it is qualified as such. Where incidents were committed earlier but verified only in 2023, that information is qualified as relating to an incident that was verified at a later date. The information does not represent the full scale of violations against children, but provides United Nations-verified trends in grave violations against children, given that access for monitors remains a challenge to affected areas and for victims to specialized service provision. The report highlights engagement with parties responsible for violations that has resulted in behavioural change. Attacks or threats of attacks against

² For the purposes of the present report, the phrase “protected persons in relation to schools and/or hospitals”, used in Security Council resolutions [1998 \(2011\)](#), [2143 \(2014\)](#) and [2427 \(2018\)](#), as well as in the statements by the President of the Security Council of 17 June 2013 ([S/PRST/2013/8](#)) and 31 October 2017 ([S/PRST/2017/21](#)), refers to teachers, doctors, other educational personnel, students and patients.

community and civic leaders, on human rights defenders and on monitors of violations against children are a cause for concern and a strain on the monitoring capacity.

3. Pursuant to Security Council resolution [1612 \(2005\)](#), my Special Representative for Children and Armed Conflict adopted a pragmatic approach to promote broad and effective protection for children. Reference to a situation does not seek to make any legal determination as to whether situations which are referred to in the present report constitute armed conflicts within the context of the Geneva Conventions and the Additional Protocols thereto, nor does it prejudge the legal status of the non-State parties involved in these situations. Accordingly, the report documents situations in which apparent violations of international norms and standards are of such gravity as to warrant international concern, given their impact on children. My Special Representative brings these situations to the attention of Governments, which bear the primary responsibility for protecting children, in order to encourage them to take remedial measures.

II. Situation of children and armed conflict

A. Overview of trends and patterns

4. In 2023, violence against children in armed conflict reached extreme levels, with a shocking 21 per cent increase in grave violations. Children bore the brunt of multiplying and escalating crises that were marked by a complete disregard for child rights, notably the inherent right to life. The number of instances of killing and maiming increased by a staggering 35 per cent. Children were killed and maimed in unprecedented numbers in devastating crises in Israel and the Occupied Palestinian Territory, notably in the Gaza Strip, in Burkina Faso, the Democratic Republic of the Congo, Myanmar, Somalia, the Sudan, the Syrian Arab Republic and Ukraine, among many other situations.

5. The United Nations verified 32,990 grave violations, of which 30,705 were committed in 2023 and 2,285 were committed earlier but verified in 2023. Violations affected 22,557 children (15,847 boys, 6,252 girls, 458 sex unknown) in 25 situations and one regional monitoring arrangement covering the Lake Chad basin region.

6. The highest numbers of violations were the killing (5,301) and maiming (6,348) of 11,649 children, followed by the recruitment and use of 8,655 children, 5,205 verified incidents of the denial of humanitarian access and the abduction of 4,356 children. Children were detained for actual or alleged association with armed groups (2,491), including those designated as terrorist groups by the United Nations, or for national security reasons.

7. The United Nations made progress in engaging with parties to protect children in Afghanistan, Burkina Faso, Cameroon, the Central African Republic, Colombia, the Democratic Republic of the Congo, Iraq, Mali, Mozambique, Nigeria, the Philippines, Somalia, South Sudan, the Syrian Arab Republic, Ukraine and Yemen. More than 10,600 children formerly associated with armed forces or groups received protection or reintegration support during 2023.

8. The changing nature, complexity, expansion and intensification of armed conflict, the use of explosive weapons in populated areas, deliberate or indiscriminate attacks against civilians and civilian objects, including infrastructure, and the advent of new armed groups, alongside acute humanitarian emergencies and blatant disregard for international humanitarian law and severe violations of international human rights law, have led to alarming increases in grave violations. The conflict in

Israel and the Occupied Palestinian Territory presents an unprecedented scale and intensity of grave violations against children, with hostilities leading to an increase in grave violations of 155 per cent. In addition, new situations of concern have arisen in Haiti and the Niger, where the number of grave violations against children is alarming. Cross-border conflicts and intercommunal violence have persistently affected children, especially those in the central Sahel and Lake Chad basin regions. The Sudan witnessed a staggering 480 per cent increase in grave violations against children and the situation in Myanmar deteriorated with a 123 per cent increase in such violations. Grave violations also increased in Colombia, Lebanon and Nigeria. Conversely, Iraq, Mozambique, the Philippines, South Sudan, Ukraine and Yemen have recorded decreases in grave violations.

9. The highest numbers of grave violations were verified in Israel and the Occupied Palestinian Territory, the Democratic Republic of the Congo, Myanmar, Somalia, Nigeria and the Sudan. The monitoring and verification of grave violations remained extremely challenging, including owing to access constraints, a high level of insecurity, and threats and direct attacks on United Nations personnel, monitors and humanitarian actors, leading to the underreporting of grave violations. Verified cases of conflict-related sexual violence perpetrated against children (1,470) increased by 25 per cent, which is particularly concerning, as such violence continued to be vastly underreported owing to stigmatization, the fear of reprisals, harmful social norms, the absence of, or lack of access to, services, impunity and safety concerns, as also reported in my report on conflict-related sexual violence (S/2024/292). Furthermore, the number of children who were victims of multiple grave violations increased, as illustrated by the high percentage of girls being abducted for recruitment and use and sexual violence, including rape and sexual slavery.

10. While non-State armed groups were responsible for almost 50 per cent of grave violations, government forces were the main perpetrator of the killing and maiming of children, attacks on schools and hospitals, and the denial of humanitarian access.

11. In 2023, boys were more frequently subjected to recruitment and use, killing and maiming, and abduction. Girls experienced a disproportionately higher incidence of conflict-related sexual violence. The number of verified cases of grave violations saw a particularly high surge in the recruitment and use of boys. Factors including gender, age, ethnicity, race and disability were determining factors in adversely shaping the vulnerability of children to these violations.

B. Challenges and the way forward

12. The denial of humanitarian access often coincides with an escalation in other grave violations, including the recruitment and use of children and sexual violence, among other violations. Safe, rapid and unimpeded humanitarian access is a prerequisite for effective humanitarian action. Verified incidents of the denial of humanitarian access continued to rise by over 32 per cent to alarming levels in 2023.³ The denial of humanitarian access took various forms, including the restriction of humanitarian activities and movements, interference with humanitarian operations and aid recipients, disinformation and arbitrary detention, the perpetration of violence against and the killing of humanitarian personnel, and looting. The highest number of denials of humanitarian access were verified in Afghanistan, the Central African

³ Information related to the denial of humanitarian access to children is presented pursuant to Security Council resolution 1612 (2005) and follows guidelines of the monitoring and reporting mechanism on children and armed conflict. The information presented herein does not reflect the full humanitarian access situation in the countries concerned.

Republic, Israel and the Occupied Palestinian Territory, Mali, Myanmar, Ukraine and Yemen. The situation is expected to deteriorate in several contexts given the adoption of restrictive laws, decrees and regulations that increase control over humanitarian organizations and personnel, notably in Afghanistan, Myanmar and the Sudan.

13. Attacks on schools and hospitals (1,650) remain concerning, particularly in Israel and the Occupied Palestinian Territory, Ukraine, Myanmar, the Democratic Republic of the Congo and the Sudan. Such attacks deprive children of their right to education and health care, have a detrimental impact on children's psychological well-being, disrupt the fundamental premise of these institutions as zones of learning and safety, and expose them to heightened risks of other grave violations, such as an increased number of girls being subject to abduction and sexual violence. The use of schools for military purposes erodes their integrity and civilian character, and can render them targets of attacks and further violence.

14. The incorporation of child protection measures and capabilities within the mandates of United Nations peacekeeping operations and special political missions, in accordance with the policy on child protection policy in United Nations peace operations (2017) and Security Council resolution [2594 \(2021\)](#), is crucial. The departure of United Nations peace operations often takes place in contexts characterized by complex political dynamics and protracted humanitarian, development and peace and security challenges. Sustained political involvement and the development of comprehensive child protection strategies for the period after mission drawdown are paramount to the success of transition phases and in ensuring that gains in child protection can be sustained, alongside host government protection strategies. The establishment of a follow-up mechanism equipped with dedicated personnel so as to ensure that child protection knowledge, data and capacity are preserved and transferred, and the allocation of resources, are critical.

III. Information on grave violations

A. Situations on the agenda of the Security Council

Afghanistan

15. The United Nations verified 1,865 grave violations against 834 children (736 boys, 98 girls), including 5 children who were victims of multiple violations.

20. The United Nations verified 75 attacks on schools (60) and hospitals (15), including attacks on protected persons in relation to schools and/or hospitals, attributed to the Taliban (61) and unidentified perpetrators (14).

23. Some 951 incidents of the denial of humanitarian access by the Taliban (946) and unidentified perpetrators (5) were verified and mostly involved interference in humanitarian activities and response (829).

Development and concerns

24. I note the engagement between the Taliban and the United Nations, which resulted in the release of 333 boys from the Taliban's ranks. I urge the Taliban to end the recruitment and use of children and to release all children swiftly and unconditionally, and to ensure effective reintegration services. I reiterate my call upon the Taliban to define a child as every human being below the age of 18 years, develop standardized age assessment guidelines, establish child protection units at recruitment centres and respect the Optional Protocol to the Convention on the Rights of the Child on the involvement of children in armed conflict. I further urge the Taliban to engage with the United Nations and to adopt concrete measures to prohibit and prevent grave violations against children.
25. I appeal to all parties to the conflict to end and prevent grave violations against children and comply with their obligations under international humanitarian law and international human rights law. I am concerned by the number of children killed and maimed, including by explosive ordnance, and by attacks on, and the military use of, schools and hospitals. I call upon the international community to support reintegration programmes, and explosive ordnance clearance, victim assistance and risk education.
26. I am concerned by the increase in denials of humanitarian access and call upon the Taliban and all parties to allow and facilitate safe, timely and unimpeded humanitarian access to children.
27. I urge the Taliban to lift the suspension of girls' secondary education and urge the immediate and unconditional reopening of schools beyond the sixth grade for all girls. I further urge all parties to end and prevent sexual violence, and ensure accountability.

Developments and concerns

36. I welcome the appointment of focal points for child protection in the General Staff of the Armed Forces of the Central African Republic and the Ministry of Defence and the establishment of the National Child Protection Council. I encourage the creation of a dedicated working group to address grave violations and the participation of the defence and security authorities in the National Child Protection Council.

37. I commend the development by the Government, in cooperation with the United Nations, of a national strategy on preventing grave violations against children and a draft protocol for the handover of children associated with armed groups to civilian actors and urge the Government to prioritize the adoption of these measures.

38. I welcome the Government's efforts, with United Nations support, to reintegrate 42 children and encourage the Government to continue gender-sensitive reintegration and establish programmes for children who are victims of grave violations. I commend the establishment of a vocational centre for conflict-affected children in Ouaka Prefecture and encourage donors to fund reintegration and vocational programmes.

39. I commend the Government for prosecuting perpetrators of sexual violence and call upon the Government to hold all perpetrators of grave violations accountable and to ensure, with United Nations support, that adequate child-friendly programmes, safe reporting and response mechanisms are accessible to survivors. I urge all parties to end and prevent sexual violence against girls, including forced marriage.

40. I remain concerned by the number of grave violations attributed to government and pro-government forces, notably the recruitment and use of children, sexual violence and abduction. I urge the Government and pro-government forces to end and prevent grave violations against children, to cease the military use of schools and to vacate all schools. I call upon the Government to appoint child protection focal points in deployed units of the Armed Forces of the Central African Republic and to issue command directives to all government and pro-government forces, including other security personnel.

41. I remain concerned by the scale of violations attributed to armed groups, notably abduction, recruitment and use and sexual violence. I urge FPRC, UPC and MPC to implement their respective action plans and to immediately release children. I urge all armed groups to immediately cease violations, unconditionally release associated children and refrain from attacking schools and hospitals. I call upon the Armed Forces and armed groups to facilitate and allow safe and unimpeded access of humanitarian actors.

Colombia

42. The United Nations verified 432 grave violations against 329 children (219 boys, 110 girls), including 6 Venezuelan children, and 52 children were victims of multiple violations. In addition, the United Nations verified two grave violations that occurred in 2022.

43. The United Nations verified the recruitment and use of 262 children (176 boys, 86 girls). One child was recruited on two separate occasions, by different armed groups. Perpetrators were Fuerzas Armadas Revolucionarias de Colombia-Ejército del Pueblo (FARC-EP) dissident groups (186), Ejército de Liberación Nacional (ELN) (41), Clan del Golfo (also known as Autodefensas Gaitanistas de Colombia) (22), unidentified perpetrators (12) and the Colombian armed forces (2). The majority of those children remain associated (136), 112 were released or escaped, and 14 were killed. Some 38 children were used in combat roles. According to the Colombian Family Welfare Institute, 213 children formerly associated with armed groups entered its protection programme.

44. A total of 63 children (47 boys, 16 girls) were killed (29) and maimed (34) by unidentified perpetrators (31), FARC-EP dissident groups (18), Clan del Golfo (6), the Colombian armed forces (5) and ELN (3). 47. A total of 32 children (23 boys, 9 girls) were abducted by FARC-EP dissident groups (12), ELN (10), Clan del Golfo (5), unidentified perpetrators (4) and the Colombian armed forces (1), mostly for the purposes of recruitment, retaliation or intimidation. A total of 19 children escaped or were released, 2 were killed, and the status of 11 is unknown.

48. Some 22 incidents of the denial of humanitarian access were attributed to ELN (13), FARC-EP dissident groups (6) and unidentified perpetrators (3).

Developments and concerns

49. I commend the Government for the launch of the national action plan for the implementation of the Safe Schools Declaration and urge its swift implementation across the territories. I also welcome the resumption of the work of the intersectoral commission for preventing the recruitment and exploitation of, and sexual violence against, children and adolescents by illegal armed groups and organized criminal groups in April 2023.

50. I welcome the decision by the Special Jurisdiction for Peace to open Case 11, which focuses on sexual violence and gender-based crimes committed in the context of the conflict. However, I remain concerned about ongoing cases of sexual violence, particularly against girls associated with armed groups. I urge all parties to take immediate action to end and prevent sexual violence.

51. I encourage the implementation of an intersectoral government strategy to prevent and respond to grave violations against children at the local level, with an ethnic, gender and community focus and with adequate human and financial resources. I reiterate that children who are victims of recruitment should be referred to civilian authorities under established protocols and be given access to reintegration services, without discrimination on the basis of nationality, ethnicity, gender or legal status. I reiterate my call upon the armed forces to stop the organization of civilian-military activities involving children.

52. I am gravely concerned by the continued increase in grave violations, particularly the recruitment and use of children by FARC-EP dissident groups and ELN, as well as attacks on schools and the widespread presence of explosive ordnance. It is particularly concerning that these violations have a disproportionate impact on Indigenous children and children of African descent, and on girls.

53. I urge armed groups to immediately end violations, unconditionally release children and, with the United Nations, adopt concrete time-bound commitments to end and prevent grave violations.

54. I reiterate my urgent call to negotiating parties in ongoing peace talks to include child protection priorities in the agenda of peace dialogues and explicitly prohibit all six grave violations against children, including sexual violence, in ceasefire protocols.

55. I call upon parties to conflict to formally recognize and comply with the age of 18 as the minimum age of recruitment and use by armed groups and armed forces, in line with Colombian legislation and global protection standards.

Democratic Republic of the Congo

56. The United Nations verified 3,764 grave violations against 2,838 children (1,973 boys, 865 girls). In addition, 389 violations that occurred in previous years were verified. A total of 1,027 children were victims of multiple violations.

Some 28 perpetrators from the Armed Forces of the Democratic Republic of the Congo (21), armed groups (3), the Congolese National Police (2) and the National Intelligence Agency (2) were arrested.

61. A total of 88 attacks on schools (44) and hospitals (44), including against protected persons (6), by CODECO (34), M23 (24), ADF (4), unidentified perpetrators (4) and other armed groups (19), and by the Armed Forces of the Democratic Republic of the Congo (2) and the Burundi National Defence Force (1) were verified. 62. A total of 870 children (618 boys, 252 girls) were abducted by ADF (185), Raia Mutomboki (111), Nyatura (94), M23 (77), CODECO (71), Mai-Mai Mazembe (62), UPDC (50), APCLS (40), AFRC (39), unidentified perpetrators (36), Mai-Mai Zaïre

(30), and other armed groups (73), including FDLR-FOCA (8) and Mai-Mai Apa Na Pale (1), and by the Armed Forces of the Democratic Republic of the Congo (2). Most children (666) were abducted for the purpose of recruitment and use.

63. Some 10 incidents of the denial of humanitarian access, including the perpetration of violence against (4), abduction (2) and killing (1) of humanitarian personnel, as well as looting (3), by Mai-Mai Biloze Bishambuke (3), CODECO (2), Mai-Mai Yakutumba (2), M23 (1), Mai-Mai Kamama (1) and Mai-Mai Mamadou (1) were verified.

Developments and concerns

64. I welcome the commitment of the Government to implementing the 2012 action plan. I urge the Government to prioritize the prevention of sexual violence, with a focus on addressing sexual violence perpetrated by the Armed Forces of the Democratic Republic of the Congo. I welcome the establishment of the National Reparations Fund for Victims of Conflict-Related Sexual Violence and Other Crimes against the Peace and Security of Mankind. I further welcome the prosecution and conviction of perpetrators of grave violations, including for sexual violence, and encourage the continuation of accountability efforts.

65. I commend the cooperation between the Government and the United Nations on screening, age assessment and separation of children from the Armed Forces of the Democratic Republic of the Congo and the Congolese National Police during recruitment processes. I welcome the continued absence of verified cases of recruitment and use by the Armed Forces of the Democratic Republic of the Congo and the Congolese National Police. I further encourage regional forces deployed in the Democratic Republic of the Congo to include child protection in predeployment trainings.

66. I welcome the signature of a unilateral declaration by Raia Mutomboki Kiriku on ending and preventing grave violations against children, and the release of 535 children by armed groups in 2023, following United Nations advocacy.

67. I urge all parties to immediately vacate all schools and to end and prevent the military use of schools and hospitals.

68. I encourage the Government to further operationalize the disarmament, demobilization, community recovery and stabilization programme and reiterate the need to prioritize children. I call upon donors, especially international financial institutions, to support this programme.

69. I remain deeply alarmed by the devastatingly high number of grave violations against children, particularly by armed groups. I condemn the further increase in grave violations, especially killing and maiming, abduction and recruitment and use of children, and call upon armed groups to immediately and unconditionally release all children. I urge all parties to take measures to better protect children.

Developments and concerns

78. I welcome the signature of a handover protocol in January 2024 between the Government and the United Nations for the transfer of children allegedly associated with armed gangs to civilian child protection actors.

79. I call for the continuation of an inter-Haitian dialogue towards a lasting political solution and underline the importance of including child protection provisions.

80. I remain deeply concerned by indiscriminate armed gang violence and grave violations against children, in particular the killing and maiming and abduction of children, and the perpetration of sexual violence against children. I call for accelerating the deployment of the Multinational Security Support Mission to assist the Haitian National Police in re-establishing security in Haiti, as authorized by the Security Council in its resolution [2699 \(2023\)](#), and for appropriate training in child protection for its personnel.

81. I am concerned by restrictions on humanitarian access and call upon the Government, the Haitian National Police and armed gangs to support and facilitate safe, timely and unimpeded humanitarian access.

Iraq

Developments and concerns

88. I commend the Government for the completion of the activities of the action plan, including the establishment of a Human Rights Directorate and complaints desk in the Popular Mobilization Forces, the appointment of focal points, the re-issuance of command orders prohibiting the recruitment and use of children, the provision of training on child protection and strengthened age assessment procedures. I note the decision of the Minister of Labour in March 2024 to establish the National Committee for the Prevention of Child Rights Violations and Preventing Future Violations and encourage the swift operationalization thereof.

89. I welcome the Government's engagement with my Special Representative, including through her visit in January 2024, and encourage the Government to further institutionalize child protection by developing preventive frameworks, including by adopting the draft child protection law, taking into account its obligations under the Convention on the Rights of the Child and international human rights law, ensuring legal documentation for all children in Iraq and strengthening long-term community-based reintegration, with the support of the United Nations.

90. I further welcome the absence of verified cases of recruitment and use and denial of humanitarian access.

91. I am concerned that explosive ordnance remains the leading cause of child casualties. I call upon the Government to continue clearing contaminated areas, prioritizing areas of return and child-friendly spaces, and to provide education regarding the risks of explosive ordnance, as well as assistance to victims.

92. I note the release of 71 children who had been detained on national security-related charges, but I remain concerned by the continued detention of children on such charges, including for their actual or alleged association with Da'esh. I reiterate

that children should be treated primarily as victims and in line with international juvenile justice standards. Children should be detained only as a last resort and for the shortest period. I call upon the Government to release the children to child protection actors and to ensure access for formerly detained children to services, assistance and protection.

93. I commend the Government for the repatriation of 2,255 Iraqi children (1,142 boys, 1,113 girls) from the north-eastern Syrian Arab Republic. I reiterate my call upon all countries concerned to facilitate and expedite the voluntary repatriation of children, including those with suspected family ties to Da'esh.

Israel and the State of Palestine⁴

In addition, some 250 people, including women and children, were abducted and taken into the Gaza Strip, with some subsequently released, including during a seven-day humanitarian pause that started on 24 November. The violence that has been perpetrated since 7 October in Israel and the Occupied Palestinian Territory – particularly in and around the Gaza Strip – has shaken the region and devastated the lives of millions of Palestinians and Israelis. The scale of death and destruction is shocking and unprecedented.

95. The United Nations verified 8,009 grave violations against 4,360 children (3,139 boys, 1,221 girls; Israeli children (113), Palestinian children (4,247)) in Israel (120); the occupied West Bank, including East Jerusalem (4,868); and in the Gaza Strip (3,021).

In addition, the process of attribution of verified violations (2,051) is ongoing.

97. Owing to severe access challenges, in particular in the Gaza Strip, the information presented herein does not represent the full scale of violations against children in this situation. 2023 saw a significant increase in violations, and the last quarter of the year witnessed widespread violence by all parties to the conflict; over 23,000 grave violations against children (3,900 Israeli children, 19,887 Palestinian children) by all parties to the conflict were reported and are pending verification.

98. The United Nations verified 136 violations against 113 Israeli children (66 boys, 47 girls) in Israel (120), the occupied West Bank, including East Jerusalem (15), and the Gaza Strip (1) by Hamas' Izz al-Din al-Qassam Brigades and other armed groups (116), Palestinian Islamic Jihad's Al-Quds Brigades (1), individual Palestinian perpetrators (12), and unidentified perpetrators (7). 103. Sexual violence against Israeli civilians, including children, in the context of the 7 October attacks in southern Israel, was reported.

104. The United Nations verified 17 attacks on schools (2) and hospitals (15) in Israel, including on health facilities (4), ambulances (4) and protected personnel (7), by Hamas' Izz al-Din al-Qassam Brigades and other Palestinian armed groups (14) and unidentified perpetrators (3). There are numerous other reports of the use of human shields by Hamas' Izz al-Din al-Qassam Brigades and other Palestinian armed groups in the Gaza Strip.

105. A total of 47 Israeli children (20 boys, 27 girls) were abducted by Hamas' Izz al-Din al-Qassam Brigades and other Palestinian armed groups in southern Israel, 36 of whom were held hostage and subjected to ill-treatment in the Gaza Strip by Hamas' Izz al-Din al-Qassam Brigades, Palestinian Islamic Jihad's Al-Quds Brigades, the Palestinian Mujahidin Movement Mujahidin Brigades and other Palestinian armed groups. Two boys were still being held as at December 2023. Children held hostage in the Gaza Strip continue to be denied humanitarian access and assistance. The remaining 11 children were abducted by Hamas' Izz al-Din al-Qassam Brigades, Palestinian Islamic Jihad's Al-Quds Brigades and other Palestinian armed groups during the 7 October attacks in southern Israel and escaped or were released (8) or were killed (3).

Five children were victims of multiple violations.

107. In the occupied West Bank, the United Nations verified the use of Palestinian boys (5) by Israeli armed and security forces to shield forces during law enforcement operations. Three children reported that Israeli armed and security forces had attempted to recruit them as informants. During 2023 in the Gaza Strip, Hamas' Izz al-Din al-Qassam Brigades and Palestinian Islamic Jihad's Al-Quds Brigades organized "summer camps", including for children, exposing them to military content and activities.

108. The United Nations verified the detention of 906 Palestinian children (897 boys, 9 girls) for alleged security offences by Israeli armed and security forces in the occupied West Bank (435), East Jerusalem (458) and the Gaza Strip (13). Israeli authorities reported that 49 Palestinian children were held under administrative detention as at 31 December. The United Nations received the testimonies of 84 children who reported ill-treatment by Israeli armed and security forces while in detention. Further, the United Nations received reports of the detention of Palestinian children in the Gaza Strip, compounded by multiple forms of sexual violence.

109. The United Nations verified the killing of 2,267 Palestinian children (1,259 boys, 1,008 girls) in the Gaza Strip (2,141) and the occupied West Bank, including East Jerusalem (126), by Israeli armed and security forces (206), Palestinian Islamic Jihad's Al-Quds Brigades or other Palestinian armed groups (2), Israeli settlers (1), Palestinian Authority Security Forces (PASF) (1) and unidentified perpetrators (6) (improvised explosive devices (4) and crossfire between PASF and armed Palestinians (1)). In addition, the process of attribution regarding the verified killing of Palestinian children (2,051) that occurred between 7 October and 31 December in the Gaza Strip is ongoing. Most incidents were caused by the use of explosive weapons in populated areas by Israeli armed and security forces. Furthermore, in the Gaza Strip, some 9,100 children were reported killed and verification is ongoing. In the occupied West Bank, including East Jerusalem, most Palestinian children were verified as having been killed by Israeli armed and security forces (120), by live ammunition (102) and air strikes (18), during Israeli armed and security forces' law enforcement operations, many in circumstances raising concerns of unwarranted or excessive use of force, including militarized operations and operations leading to armed exchanges with Palestinians, and in relation to attacks or alleged attacks on Israeli civilians or forces (9). Some 19,887 Palestinian children were reported killed or maimed and the reports are pending verification.

110. A total of 1,975 Palestinian children (1,809 boys, 166 girls) were verified as maimed in the occupied West Bank, including East Jerusalem (1,825), and in the Gaza Strip (150). Incidents involved attacks and threats of attack on health facilities (118), medical personnel (102) and ambulances (106), and attacks on schools (43) and education personnel (2). In addition, the United Nations verified incidents of the military use (5) of ambulances by Israeli armed and security forces (4) and a health centre by Hamas' Izz al-Din al-Qassam Brigades (1). Separately, 561 other interferences with education (461) and health (100) by Israeli armed and security forces (443), Israeli settlers (24) and unidentified perpetrators (94) were verified. Schools in the Gaza Strip have remained closed since 7 October 2023, affecting 625,000 children.

A total of 3,227 permit applications (1,895 for boys, 1,332 for girls) to Israeli authorities for children to exit the Gaza Strip through the Erez crossing point, or from the occupied West Bank, to gain access to specialized medical treatment were denied or not approved in time to reach scheduled hospital appointments, while 17,693 applications were approved. On 7 October 2023, the Erez crossing point was closed. Following the attack on 7 October, Israel declared and imposed a siege of the Gaza Strip on 9 October. The United Nations verified 23 denials of humanitarian access by Israeli authorities related to denied coordination of humanitarian aid missions and prevention of access to medical care. In the context of Israeli armed and security forces military operations in the Gaza Strip, humanitarian personnel were killed, including 144 United Nations personnel, and nearly all critical infrastructure, facilities and services have been attacked, including shelter sites, United Nations installations, schools, hospitals, water and sanitation facilities, grain mills and bakeries. Access restrictions, water and fuel shortages and electricity and telecommunications blackouts also impeded access to humanitarian services. Children are at risk of famine, severe malnutrition and preventable death.

Developments and concerns

113. I am appalled by the dramatic increase and unprecedented scale and intensity of grave violations against children in the Gaza Strip, Israel and the occupied West Bank, including East Jerusalem, despite my repeated calls for parties to implement measures to end grave violations. I reiterate my urgent call upon Israel, Hamas' Izz al-Din al-Qassam Brigades, Palestinian Islamic Jihad's Al-Quds Brigades and other Palestinian armed groups to take meaningful measures to comply with international humanitarian and human rights law, urgently and immediately agree to a humanitarian ceasefire, and facilitate the immediate and unconditional release of all hostages and for them to be treated humanely. In the interim, they must be allowed to receive visits from the International Committee of the Red Cross. I reiterate that international humanitarian law requires the parties to treat children affected by armed conflict as persons who are entitled to special respect and protection. I repeat my call for an end to all violations of international humanitarian law.

114. I am shocked at the killing and maiming and abduction of children by Hamas' Izz al-Din al-Qassam Brigades, Palestinian Islamic Jihad's Al-Quds Brigades and other Palestinian armed groups. Nothing can justify the brutal acts of terror that were committed and the deliberate killing, maiming, torture and abduction of civilians and other protected persons. I am appalled by the reports of sexual violence during the attacks; these must be investigated and prosecuted. I call upon all Palestinian armed groups to abide by their obligations under international humanitarian law and refrain from attacks that target civilians, including children, and from indiscriminate attacks, including the launching of rockets and mortars from densely populated areas in the Gaza Strip towards Israeli civilian population centres. I call upon Hamas' Izz al-Din al-Qassam Brigades and other Palestinian armed groups to release immediately and unconditionally all hostages, including children, and facilitate access for humanitarian actors. I am deeply concerned by reports that children held hostage were subjected to threats, violence and ill-treatment. I call upon Palestinian armed groups to protect schools and hospitals, including protected persons in relation to schools and/or hospitals.

115. I am shocked by the unprecedented number of children killed and maimed by Israeli armed and security forces in the Gaza Strip and the occupied West Bank, including East Jerusalem. The magnitude of the Israeli military campaign against Hamas' Izz al-Din al-Qassam Brigades and the scope of death and destruction in the

Gaza Strip have been unprecedented. I reiterate my calls upon Israel to abide by international humanitarian law and human rights law and ensure that civilians, including children, and civilian infrastructure are not targeted, and that incidental loss of civilian life, injury to civilians and damage to civilian objects are not caused in violation of the principle of proportionality in international humanitarian law, and to ensure that all feasible precautions are taken to avoid, and in any event to minimize, such incidental loss, injury or damage in the conduct of military operations. I am deeply concerned regarding the excessive use of force during law enforcement operations and reiterate that security forces must exercise maximum restraint and use intentional lethal force only when it is strictly unavoidable in order to protect life and put in place preventive and protective measures to minimize damage and injury, including damage and injury that affect children. I further urge Israel to pursue accountability for violations against children. I exhort Israel to take immediate steps to protect schools and hospitals, including ambulances and protected persons in relation to schools and/or hospitals, and refrain from attacking them or using them for military purposes. Further, I am deeply concerned by the alarming increase in the number of children arrested and detained by Israel and by the reports by children of physical violence directed against them during detention. I reiterate my call upon Israel to uphold international juvenile justice standards, including the use of detention only as a last resort and for the shortest period of time, to immediately end the administrative detention of children, to prevent any violence and ill-treatment in detention and to prevent attempted use of children as informants.

116. I urge all parties to conflict to immediately end and prevent grave violations against children and to urgently engage with my Special Representative and the United Nations working group on children and armed conflict on the ground, on the basis of the letters previously addressed by Israel, Hamas and Palestinian Islamic Jihad to my Special Representative in 2022 and 2023, and to adopt immediately clear, time-bound commitments to end and prevent grave violations against children, as proposed by the United Nations, and to comply with international humanitarian law and international human rights law.

117. I am deeply alarmed about the deteriorating humanitarian conditions, and by attacks against humanitarian workers, including the killing of United Nations personnel. I call upon Israel to grant full, rapid, safe and unhindered access for humanitarian aid and personnel into and within the Gaza Strip. The United Nations and its partners cannot effectively deliver humanitarian aid while the Gaza Strip is under heavy, widespread and unrelenting military operations, including air strikes. I call upon all parties to conflict to respect the humanitarian notification system so as to maximize the safety of aid operations.

The military use of eight United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) schools by Fatah and Jund al-Sham in a Palestine refugee camp was verified. Four schools have since been vacated but remain inaccessible to UNRWA.

Developments and concerns

123. I am concerned about the rise in verified grave violations, notably the recruitment and use of children and the killing and maiming of children. I urge the Government to engage with the United Nations to strengthen child protection systems.

124. I reiterate my call upon the Government to release children detained on national security grounds to civilian child protection actors and to treat them primarily as victims and in line with international juvenile justice standards.

125. I am disturbed by continued armed clashes in Palestine refugee camps and their impact on children. I urge Fatah and Jund al-Sham to immediately vacate schools.

Developments and concerns

132. I welcome the commitment made by the Government of National Unity to increase the minimum age of recruitment into security forces to 18 years.

133. I am concerned about the increase in abductions of children, including by security institutions, and the prevalence of killing and maiming of children. I urge all

parties to comply with their obligations under international humanitarian law and international human rights law to ensure the protection of children.

134. I urge the Libyan authorities to engage with the United Nations to develop and adopt measures to end and prevent all violations against children, and to ensure that child protection provisions are included in disarmament, demobilization and reintegration efforts.

135. I urge the Libyan authorities to immediately end child detention, including for children detained for their mothers' alleged association with Da'esh, pursue alternatives to detention, provide children with safe family-based care and facilitate access by the United Nations and other humanitarian agencies to detention centres. I encourage the Libyan authorities to facilitate the voluntary repatriation of children allegedly associated with Da'esh and call upon all countries concerned to facilitate their voluntary repatriation and reintegration, in line with the principle of non-refoulement, family unity and the best interests of the child.

I commend the endorsement of the juvenile justice and the child rights bills by the Federal Cabinet and I urge their adoption by the Federal Parliament, including with the provision maintaining that a child is a person below the age of 18 years. Developments and concerns

209. I am concerned by the high number of grave violations against children in the Syrian Arab Republic, particularly recruitment and use and killing and maiming. I urge all parties to end and prevent grave violations and comply with their obligations under international humanitarian law and international human rights law. I call upon all parties to unconditionally and immediately release all children and to better protect children and civilian infrastructure during hostilities and from the risks of explosive ordnance, especially in populated areas.

210. All parties must end and prevent attacks against schools and hospitals and their military use. I urge all relevant parties to vacate schools and hospitals.

211. I call upon the Government to ensure accountability for perpetrators of grave violations, in accordance with its obligations under international law and in line with international standards. I call upon all parties to hold their members to account for perpetrating grave violations.

214. I am concerned by the increase in recruitment and use of children by SDF and I encourage SDF to fully implement its 2019 action plan. I note the constructive dialogue between SDF, the self-administration in northern and eastern Syria, and the United Nations in adopting a road map to prioritize the implementation of the action plan, including the reappointment of senior-level focal points, the establishment of an implementation committee and a military order reiterating the prohibition of the recruitment and use of children.

215. I remain alarmed by the persistently high number of children deprived of liberty for their actual or alleged association with parties to conflict, including Da'esh, or on national security grounds. Children should be treated primarily as victims and deprivation of liberty should only be used only as a measure of last resort and for the shortest period of time. I remain seriously concerned by the appalling humanitarian situation and violence affecting women and children in Hawl and Rawj camps and in places of detention in the north-east. I urge all parties and relevant authorities detaining and/or depriving children of liberty to provide the United Nations and humanitarian actors with systematic and meaningful access to children deprived of liberty, including in Hawl and Rawj camps, military and civilian prisons, administrative detention and in reintegration centres, and to facilitate access to essential services and family reunification for these children.

216. I reiterate my call upon all concerned countries of origin and relevant authorities inside the Syrian Arab Republic to facilitate the safe and voluntary repatriation of women and children from Hawl and Rawj camps and in places of detention in the north-east, including those with suspected family ties to Da'esh, in line with international law and in respect for the principles of non-refoulement, family unity and the best interests of the child, in line with the Global Framework on United Nations Support to Member States on Individuals Returned from the Syrian Arab Republic and Iraq and, upon request, with United Nations support.

Development and concerns

329. I note a significant decrease in the number of grave violations against children. I call upon all parties to the conflict to abide by their obligations under international humanitarian law and international human rights law. I further call upon parties to the conflict to ensure timely and effective investigations into allegations of violations against children and to ensure that alleged perpetrators, including members of the security forces and persons in command positions, are duly prosecuted.

330. I welcome the significant decrease in the verified number of children killed and maimed and attacks on schools and hospitals attributed to the Ukrainian armed forces. I welcome the signing on 18 August 2023 and the close cooperation between the Government of Ukraine and the United Nations in the swift implementation of a joint prevention plan to prevent grave violations against children, including through the appointment of focal points and reviewing the Safe Schools Declaration action plan. I encourage the Ukrainian armed forces to train children and armed conflict focal points in the Ministry of Defence, and to prevent the military use of schools.

331. I also note a decrease in the overall number of verified grave violations against children perpetrated by the Russian armed forces and affiliated armed groups, but I remain deeply concerned by the continued killing and maiming of children due to explosive weapons in populated areas and attacks on schools and hospitals. I encourage the continued engagement of the Government of the Russian Federation with my Special Representative to end and prevent grave violations against children and I note the practical prevention measures reported by the Russian Federation. I urge the Russian armed forces and affiliated armed groups to speedily agree to enhance these measures through the development of a joint action plan to end and prevent grave violations against children.

332. I remain particularly concerned by the denial of humanitarian access attributed to the Russian armed forces and affiliated armed groups. I call upon the Russian Federation to grant the United Nations and its partners access to deliver humanitarian assistance and to conduct monitoring of grave violations through the cross-lines to the territories of Ukraine temporarily controlled or occupied by the Russian Federation.

333. I am concerned by the detention of children, and I urge all parties to ensure that children are detained only as a last resort and for the shortest period of time. I urge the Russian armed forces and affiliated armed groups to cease all forms of ill-treatment.

334. I am concerned by the levels of the verified cases of abduction of children and by continued reports of transfers of children by the Russian armed forces and affiliated armed groups and Russian authorities located in territories of Ukraine temporarily controlled or occupied by the Russian Federation, and I urge the Russian armed forces and affiliated armed groups and Russian authorities located in territories of Ukraine temporarily controlled or occupied by the Russian Federation to comply with their obligations under international humanitarian law and international human rights law, and to exchange information with the United Nations on all affected children. I am gravely concerned by the introduction in the Russian Federation of a simplified procedure to apply for Russian citizenship for orphaned children and children without parental care. I urge the Russian Federation to ensure that no changes are made to the personal status of Ukrainian children, including their nationality. I urge all parties to uphold the principle of the best interests of the child, facilitate family tracing and reunification of unaccompanied and/or separated children who find themselves across borders or lines of control without their families and/or guardians, including by giving child protection actors access to facilitate reunification. I strongly urge the Russian Federation to cooperate with the United Nations for the return of Ukrainian children and reunification of such children with their families and/or guardians. I also encourage Ukraine to continue its active cooperation with the United Nations on this important issue.

IV. Recommendations

335. I am deeply concerned by the magnitude and severity of grave violations against children and their gendered impact, in particular the killing and maiming of children. I urgently call upon all parties to adhere strictly to their obligations under international humanitarian law, notably the principles of distinction, proportionality and precautions in attack, and under international human rights law. I urge all parties to cease attacks on civilians and civilian objects and to take immediate, decisive action to end and prevent these grave violations.

336. I call upon parties to conflict to refrain from using explosive weapons in populated areas. I encourage Member States to endorse the Political Declaration on Strengthening the Protection of Civilians from the Humanitarian Consequences Arising from the Use of Explosive Weapons in Populated Areas.

337. I urge all parties to undertake explosive ordnance clearance, risk education and victim assistance. I urge Member States, if they have not yet done so, to become parties to and to implement the Convention on Cluster Munitions; the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects and the Protocols thereto; and the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction, and I call upon donors to provide financial and technical assistance.

338. I commend the continued engagement by parties to conflict with the United Nations to develop and implement action plans and other commitments to end and prevent grave violations. I reiterate my call upon Member States to support this engagement, including by facilitating United Nations engagement with non-State actors. I request my Special Representative and the country task forces and equivalent arrangements to engage with all parties to end and prevent grave violations and to strengthen the monitoring and reporting on children and armed conflict.

339. I call upon the Security Council to ensure that child protection provisions and capacity are included in all relevant mandates of United Nations peacekeeping operations and special political missions. Governments and the United Nations should ensure that during mission transitions, including the start-up, reconfiguration, drawdown or withdrawal phases, child protection frameworks are upheld, and that data and capacity are preserved and transferred. I underline the importance of mainstreaming child protection concerns in the nexus between early warning, conflict analysis, mediation, transitional justice and disarmament, demobilization and reintegration.

340. I call upon Member States to become parties to the Optional Protocol to the Convention on the Rights of the Child on the involvement of children in armed conflict, if they have not yet done so. I urge Member States and parties to conflict to consider every human being below the age of 18 years as a child.

341. I call upon Member States to endorse and implement the Paris Principles, the Safe Schools Declaration and the Vancouver Principles.

342. I call for the adoption and implementation of legislation that criminalizes violations of international law, including grave violations against children, and encourage Member States to adopt accountability measures and to cooperate with international accountability mechanisms.

343. I am deeply alarmed by the increase in the denial of humanitarian access and the continued high numbers of attacks on schools and hospitals. I call upon all parties to allow and facilitate safe, timely and unimpeded humanitarian access, and access by children to assistance and protection, irrespective of their age, gender, diversity characteristics, nationality, or legal status, and to ensure the safety and security of humanitarian personnel and assets. I underline that civilians and civilian objects, including hospitals, schools, their personnel and transport, must be protected, in accordance with international humanitarian law. I urge parties to refrain from the military use of schools and hospitals.

344. I am deeply concerned by the increase in the number of children deprived of liberty. I reiterate that detention should be used only as a measure of last resort and for the shortest appropriate period of time, that alternatives to detention should be prioritized and that children should be treated exclusively within child justice systems, and that children should never be detained or prosecuted solely for their or their parents' actual or alleged association with armed groups. I urge Member States to treat children actually or allegedly associated with armed forces or groups, including those designated as terrorist groups by the United Nations, primarily as victims, to prioritize their best interests, and to give child protection actors access to them. I encourage Member States to adopt and implement handover protocols for children encountered or detained during military operations to civilian child protection actors.

345. I reiterate my call upon Member States, in line with the principle of non-refoulement, family unity and the best interests of the child, to release children with alleged links to Da'esh who are held in places of detention in Iraq and the Syrian Arab Republic, in line with international law and Security Council resolutions. I call

upon Member States to ensure the consistency of counter-terrorism measures with international law, including the Convention on the Rights of the Child.

346. I call upon the donor community to scale up long-term financial support for effective, sustainable, timely, gender- and age-sensitive and survivor-centred long-term programmes, following an intersectional approach, including reintegration for victims of grave violations, and to address the needs of children with disabilities.

347. I encourage donors to provide funding for monitoring and reporting on grave violations against children, in particular for child protection capacities on the ground. I underline the importance of data collection on sexual violence, on children with disabilities and on trafficking in children.

348. I encourage Member States and regional and subregional organizations to engage with the United Nations to prevent grave violations and foster partnerships.

V. Lists contained in the annexes to the present report and measures by listed parties aimed at improving the protection of children

349. The modifications to the presentation of this section and to the lists contained in the annexes to the present report resulted from the recognition of the measures by listed parties aimed at improving the protection of children, the recognition of the primary responsibility of States to protect their populations and of their obligations under international humanitarian law and international human rights law, and the recognition of the need for non-State armed groups to abide by international humanitarian law and international human rights law, as well as from the need to foster accountability and justice for grave violations against children.

350. The modifications render redundant the separation of annexes I and II into sections A and B based on whether listed parties have put in place measures during the reporting period aimed at improving the protection of children.

A. New listed parties contained in the annexes to the present report

State actors

351. In Israel and the Occupied Palestinian Territory, the Israeli armed and security forces have been listed for the killing and maiming of children, and for attacks on schools and hospitals. While noting a decrease in violations against children during the first nine months of 2023, owing to direct engagement with my Special Representative regarding the prompt approval for children to receive medical attention outside the Gaza Strip, the last quarter of 2023 exposed an extreme rise in violations, particularly against children in the Gaza Strip, in particular the use of explosive weapons with wide-area effects, including in highly populated areas, which resulted in a large number of child casualties and increased attacks on schools and hospitals. I urge Israel to immediately sign an action plan with the United Nations to end and prevent the killing and maiming of children and attacks on schools and hospitals. Further, although the denial of humanitarian access to children is a non-listable violation, I urge the Israeli armed and security forces to abide by their obligations under international humanitarian law and international human rights law and to ensure safe, rapid and unimpeded access for humanitarian aid and humanitarian workers throughout the Gaza Strip. I request Israel to expedite working with my Special Representative so as to put in place measures to better protect children.

352. In the Sudan, the Sudanese Armed Forces have been listed for the killing and maiming of children and for attacks on schools and hospitals. Children were killed

and maimed at unprecedented levels in the devastating crisis in the Sudan, including through the use of explosive weapons with wide-area effects, including in highly populated areas. My Special Representative has advocated with the Sudanese Armed Forces to immediately take preventive and mitigating actions to protect children, schools and hospitals. I urge the Sudanese Armed Forces to comply with their obligations under international humanitarian law and international human rights law, and to urgently sign an action plan with the United Nations to end and prevent grave violations against children.

Non-State armed groups

353. In Burkina Faso, Islamic State in the Greater Sahara has been listed for the abduction of children. I call upon the armed group Islamic State in the Greater Sahara to adopt concrete measures to protect children in line with international standards.

354. In the Democratic Republic of the Congo, the armed group Alliance des forces de résistance congolaise has been listed for the recruitment and use of children.

355. In Israel and the Occupied Palestinian Territory, Hamas' Izz al-Din al-Qassam Brigades and affiliated factions, and Palestinian Islamic Jihad's Al-Quds Brigades have been listed for the killing and maiming and abduction of children, following the brutal acts of terror on Israel of 7 October 2023. I urge the armed groups Hamas' Izz al-Din al-Qassam Brigades and affiliated factions, and Palestinian Islamic Jihad's Al-Quds Brigades, to urgently end and prevent grave violations against children.

356. In the Sudan, the armed group Rapid Support Forces has been listed for the recruitment and use and killing and maiming of children and for rape and other forms of sexual violence against children, as well as for attacks on schools and hospitals, and the armed group Third Front-Tamazuj has been listed for the recruitment and use of children. I urge the armed groups Rapid Support Forces and Third Front-Tamazuj to urgently develop action plans with the United Nations to end and prevent grave violations against children.

357. The following parties were previously listed and have had additional violations added to their listing. In the Democratic Republic of the Congo, the armed group Alliance des patriotes pour un Congo libre et souverain has been listed for the abduction of children, and the armed group Mouvement du 23 mars has been listed for the recruitment and use of children. I urge Alliance des forces de résistance congolaise, Alliance des patriotes pour un Congo libre et souverain and Mouvement du 23 mars to urgently develop action plans with the United Nations to end and prevent grave violations against children. In Mali, the following party was previously listed and has had additional violations added to their listing: the armed group Jama'a Nusrat ul-Islam wa al-Muslimin, including Ansar Eddine, has been listed for the killing and maiming of children. I call upon the armed group Jama'a Nusrat ul-Islam wa al-Muslimin, including Ansar Eddine, to adopt concrete measures to protect children in line with international standards.

Modifications to terminology and to names of parties

358. Modifications to terminology and to names of parties resulting from changes on the ground are aimed at reflecting the names of parties more accurately. In the Central African Republic, the armed groups Front populaire pour la renaissance de la Centrafrique, Mouvement patriotique pour la Centrafrique and Union pour la paix en Centrafrique have been listed separately to reflect the fact that the former Séléka coalition no longer exists. In Myanmar, the Myanmar regime's armed forces have been listed as Myanmar armed forces, including related forces and affiliated militias, to reflect more adequately the configuration of the armed actors. In Somalia, the

Somali Federal Defence Forces have been listed as Somali National Army to align with other United Nations reporting.

B. Measures, including by listed parties, aimed at improving the protection of children

359. I welcome the State actors and non-State armed groups that have engaged with the United Nations, in line with Security Council resolutions [1539 \(2004\)](#) and [1612 \(2005\)](#), to develop and sign action plans to end and prevent grave violations against children. In the lists contained in the annexes, listed parties that have signed action plans with the United Nations are acknowledged as such, and I urge the continued and prompt implementation of these action plans.

360. I call upon all listed parties that have not yet done so to urgently engage with the United Nations to develop and sign action plans to end and prevent grave violations against children.

State actors

361. In the Democratic Republic of the Congo, in the context of its 2012 action plan, I welcome the establishment by the Government of the National Reparations Fund for Victims of Conflict-Related Sexual Violence and Other Crimes against the Peace and Security of Mankind, the prosecution of perpetrators of grave violations, including for sexual violence, and the continued screening and separation of children from the Armed Forces of the Democratic Republic of the Congo and the Congolese National Police during recruitment processes.

362. In Israel, I welcome the offer by the Government of Israel on 28 May 2024 to engage with my Special Representative to develop an action plan with the United Nations.

363. In Somalia, in the context of its 2012 action plan and the 2019 road map for implementation, I welcome the endorsement by the Federal Government of age assessment guidelines and its standardized checklist. I commend the endorsement of the juvenile justice and the child rights bills by the Federal Cabinet and I urge their adoption by the Federal Parliament, including with the provision maintaining that a child is a person below the age of 18 years.

364. In South Sudan, in the context of its 2020 action plan, I welcome the continued cooperation of the Government with the United Nations, including continued access to barracks for age screening, as well as with the National Disarmament, Demobilization and Reintegration Commission, which resulted in the release of 49 boys.

365. In Ukraine, I welcome the continued engagement of the Government of the Russian Federation with my Special Representative to end and prevent grave violations against children, and I note the practical prevention measures reported by the Russian Federation. I urge the Russian armed forces and affiliated armed groups to develop and sign an action plan with the United Nations to end and prevent grave violations against children immediately.

366. In Yemen, I welcome the continued engagement of the Government in the implementation of the 2014 action plan and 2018 road map and the hosting of my Special Representative in October 2023. I welcome the facilitation of visits to military installations to verify and promote the directives to end and prevent the recruitment and use of children, the appointment and training of 80 military focal points, and the separation of children from fighting forces. I welcome the participation of the Security Belt Forces and the Amaliqah Brigades in activities under the action plan and road map.

Non-State armed groups

367. In the Democratic Republic of the Congo, I welcome the signature of an unilateral declaration by the armed group Raia Mutomboki Kiriku to end and prevent grave violations against children following United Nations advocacy.

368. In Mali, in the context of their 2017 and 2021 action plans respectively, I welcome the cooperation of the armed groups Coordination des mouvements de l’Azawad and Platform with the United Nations, enabling visits to military bases and the screening of combatants to verify the presence of children in Gao and Kidal Regions.

369. In the Syrian Arab Republic, I welcome the signature on 3 June 2024 of an action plan between the opposition Syrian National Army, including Ahrar al-Sham and Army of Islam, and its aligned legions and factions, and the United Nations to end and prevent grave violations against children.

370. I also welcome the adoption of a road map for the implementation of the 2019 action plan between the armed group Syrian Democratic Forces, the self-administration in northern and eastern Syria, and the United Nations, including the reappointment of senior-level focal points, the establishment of an implementation committee and a military order reiterating the prohibition of the recruitment and use of children.

371. In Yemen, in the context of its 2022 action plan, I welcome the continued engagement by the Houthis armed group with the United Nations, leading to the endorsement of standard operating procedures and training on age assessment and the visit of the United Nations to military recruitment centres and a “summer school.”
