Description: Al-Qa'ida in Iraq (AQI) was designated as a Foreign Terrorist Organization on December 17, 2004. In the 1990s, Jordanian militant Abu Mus'ab al-Zarqawi organized a terrorist group called al-Tawhid wal-Jihad to oppose the presence of U.S. and Western military forces in the Middle East and the West's support for, and the existence of, Israel. In late 2004, he joined al-Qa'ida (AQ) and pledged allegiance to Usama bin Laden. At this time his group became known as al-Qa'ida in Iraq (AQI). Zarqawi led the group in Iraq during Operation Iraqi Freedom to fight against U.S. and Coalition forces until his death in June 2006.

In October 2006, AQI publicly renamed itself the Islamic State in Iraq and in 2013 it adopted the moniker ISIS to express its regional ambitions as it expanded operations to include the Syrian conflict. ISIS is led by Abu Bakr al-Baghdadi, who declared an Islamic caliphate in June 2014. In October 2017, the U.S. military fighting with local Syrian allies announced the liberation of Raqqa, the self-declared capital of the ISIS "caliphate."

Activities: As AQI, ISIS conducted numerous high profile attacks, including improvised explosive device attacks against U.S. military personnel and Iraqi infrastructure, videotaped beheadings of U.S. citizens, suicide bombings against both military and civilian targets, and rocket attacks. ISIS perpetrated these attacks using foreign and Iraqi operatives. In 2014, ISIS was responsible for the majority of the 12,000 Iraqi civilian deaths that year. ISIS was heavily involved in the fighting in Syria, including against other militant opposition groups, and participated in a number of kidnappings of civilians, including aid workers and journalists.

In 2015 and 2016, ISIS conducted several large-scale attacks in Iraq and Syria and across the globe. In February 2016, a series of ISIS suicide and car bombs killed at least 129 people in Homs and Damascus, Syria. In March, ISIS carried out a suicide attack at a crowded park in Iskandariya, Iraq at the end of a football match, killing approximately 29 and wounding more than 60 others.

In early May 2016, two suicide car bombs claimed by ISIS killed 32 and wounded another 75 in Samawa, in southern Iraq. In mid-May, ISIS conducted a series of attacks in and around Baghdad, including suicide bombings and a car bombing at a crowded market in Sadr City that killed at least 88 people – most of them women and children. In July, ISIS claimed a car bombing at a popular shopping center in Baghdad that killed nearly 300 people, making it the single deadliest bombing in Iraq's capital city since 2003. In October, it was revealed that ISIS was using hundreds to thousands of Iraqi civilians as human shields when fighting Iraqi forces.

In February 2017, ISIS killed 48 people in a car bombing in Baghdad, and another four attacks around Baghdad killed an additional eight people on the same day. In early April, the group killed 33 Syrians in eastern Syria, and on the same day, killed another 22 people in Tikrit, Iraq when ISIS gunmen opened fire on police and civilians before detonating explosives they were wearing. On June 7, ISIS gunmen and suicide bombers killed over a dozen people in two separate attacks in Tehran, including an attack inside the Parliament building. In September, ISIS killed over 80 people at a checkpoint and restaurant in Nasiriyah, Iraq, an area frequented by Shia Muslims on pilgrimage. In November, a car bombing in a predominantly Shia area of Salah ad Din province killed at least 36 people, including 11 Iraqi Security Forces personnel.

Since at least 2015, the group has integrated local children and children of foreign terrorist fighters into its forces and used them as executioners and suicide attackers. ISIS has systematically prepared child soldiers in Iraq and Syria using its education and religious infrastructure as part of its training and recruitment of members. Furthermore, since 2015, ISIS abducted, raped, and abused thousands of women and children, some as young as eight years of age. Women and children were sold and enslaved, distributed to ISIS fighters as spoils of war, forced into marriage and domestic servitude, or subjected to physical and sexual abuse. (For further information, refer to the [2017 Trafficking in Persons Report](#).)

ISIS also directs, enables, and inspires individuals to conduct attacks on behalf of the group around the world, including in the United States and Europe. In November 2015, ISIS carried out a series of coordinated attacks in Paris, France, including at a rock concert at the Bataclan concert hall, killing approximately 130 people and injuring more than 350 others; 23-year-old U.S. citizen Nohemi Gonzalez was among the dead. In March 2016, ISIS directed two simultaneous attacks in Brussels, Belgium – one at the Zaventem Airport and the other at a metro station. The attacks killed 32 people, including four U.S. citizens, and injured more than 250 people. In June 2016, a gunman who pledged allegiance to ISIS killed 49 individuals and injured 53 others at the Pulse nightclub in Orlando, Florida. In July 2016, ISIS claimed an attack in which a terrorist driving a cargo truck attacked a crowd in Nice, France, during Bastille Day celebrations, resulting in 86 deaths, including three U.S. citizens. In December 2016, ISIS claimed responsibility for a truck attack on a crowded Christmas market in Berlin, Germany that killed 12 people and injured 48 others.

On March 22, 2017, ISIS claimed responsibility for a terrorist attack on London's Westminster Bridge when a man drove his car into pedestrians and stabbed others, killing five people. In early April 2017 a man who claimed to be a member of ISIS drove a truck into a crowded shopping center in Stockholm, Sweden, killing five and injuring many more. In May, ISIS claimed a suicide bombing in Manchester, England that killed 22 people outside of a live concert.

Strength: Estimates suggest ISIS fighters in Iraq and Syria number between 6,000 and 10,000, although this number was likely reduced further in 2017 military operations.

Location/Area of Operation: ISIS's operations are predominately in Iraq and Syria, but the group has created external ISIS branches and networks. In addition, supporters and associates worldwide inspired by the group's ideology may be operating without direction from ISIS central leadership.

Funding and External Aid: ISIS received most of its funding from a variety of businesses and criminal activities within areas it controls in Iraq and Syria. Criminal activities included robbing banks, smuggling oil, looting and selling antiquities and other goods, as well as extortion, human trafficking, and kidnapping-for-ransom. However, in recent years, ISIS has lost over 98 percent of the territory (including oil and gas fields and population centers) it once controlled in Iraq and Syria, which has directly impacted ISIS's ability to generate revenue. By 2017, ISIS's revenue from oil sales and extortion was significantly lower than in 2015.
