# AT A GLANCE: PROTECTION IMPACTS OF THE CONFLICT

Update no. 25, 15 March 2024

## HIGHLIGHTS

### KEY FIGURES

**14,790+**

Estimated number of people killed  
(attributed to ACLED) as of 15  
March 2024

**33,000+**

Estimated number of people  
injured (attributed to WHO), as of 8  
December 2023

**125**

Hospitals affected

**210**

Public buildings affected

**79**

Humanitarian offices/assets  
affected

**559,423**

People fled to Chad

**594,893**

People fled to South Sudan

**450,000**

People fled to Egypt

**28,785**

People fled to CAR

**50,337**

People fled to Ethiopia

**6,467,700**

People internally displaced

Sources of displacement data:  
IDPs, IOM DTM; refugees, UNHCR

**This is a document reporting on the severity of the protection impacts on the civilian population as a result of ongoing conflict in Sudan. Clashes between the Sudanese Armed Forces (SAF) and Rapid Support Forces (RSF) erupted on 15 April 2023 and are now in their eleventh month.**

#### Major Developments:

- In mid-February, SAF regained the initiative in clashes with RSF in Omdurman and increased pressure on remaining RSF positions in the city. In consequence, Omdurman was heavily impacted by the conflict during the reporting period with multiple incidents of heavy shelling and aerial bombardments. The city remained contested at the conclusion of the reporting period.
- Throughout the reporting period, ongoing armed conflict was reported in El Fasher town of North Darfur. This was reflected in multiple aerial bombardments targeting the outskirts of El Fasher town and other areas, as well as exchanges of heavy fire within or nearby densely populated civilian residential areas. Fighting continued to drive displacement from the northern and eastern parts of El Fasher towards the southern areas of the town.
- On 8 March, the United Nations Security Council passed a resolution calling upon parties to the conflict to implement an immediate cessation of hostilities during Ramadan, facilitate cross-border and cross-line humanitarian assistance, and engage in dialogue to achieve a sustainable resolution to the fighting. Despite the resolution, hostilities continued across conflict-affected areas including Khartoum, North Darfur and Kordofan region.

#### Deaths and Injuries:

- OHCHR documented reports of the killing of at least 110 civilians in eight incidents in February, a decrease from the 150 civilian deaths documented in January. Many of those killed were women and children engaged in civilian activities inside their homes, in the street or at markets. Incidents occurred across Khartoum, West Kordofan, North Darfur, and South Darfur states.
- Since the fighting started, 21 humanitarian workers have been reported killed and 33 have been reported injured. The actual number of aid workers killed and injured may be higher as systematic reporting is inhibited by a range of factors.
- As of the end of February, OHCHR had documented 60 incidents of conflict-related sexual violence, affecting at least 120 victims (100 women, a man, 18 girls and a boy). Incidents were reported most frequently in Khartoum state (27 incidents), followed by South Darfur (10 incidents), North Darfur (10 incidents), Central Darfur (4 incidents), West Darfur (2 incidents), North Kordofan (1 incident), West Kordofan (1 incident), Red Sea State (1 incident), Kassala (1 incident) and on the road in unspecified states (2 incidents). Many incidents may go unreported due to poor communications, lack of access to services and community stigma.

#### Impact on Civilians:

- In Khartoum, clashes between SAF and RSF continued during the reporting period, including heavy shelling in residential areas. Of the estimated 3,564,234 people displaced from Khartoum, approximately 50,005 IDPs have sought safety within Khartoum state while 3,514,229 have fled to other states across Sudan.
- In South Darfur, an estimated 743,853 individuals are predominately displaced from other areas within South Darfur, with smaller groups from Central, West and North Darfur, and Khartoum. IDPs are reported to be sheltering across Al

Wihda, As Salam, As Sunta, Beliel, Buram, Damso, Ed Al Fursan, Kas, Kateila, Kubum, Mershing, Nitega, Nyala Janoub, Rehaid Albirdi, Sharg Aj Jabal, Tulus, Al Radoom, Gereida and Um Dafoug localities.

- In River Nile, an estimated 717,623 IDPs from Khartoum are sheltering with host community members or in rented accommodation across Abu Hamad, Ad Damar, Al Buhaira, Al Matama, Atbara, Barbar, and Shendi localities.
- In East Darfur, IOM DTM estimates 663,770 IDPs from East Darfur, South Darfur and Khartoum to be predominately sheltering among the host community or in public buildings. IDPs are reportedly present in Abu Jabra, Abu Karinka, Ad Du'ayn, Adila, Al Firdous, Assalaya, Shia'ria, Yassin and Bahr Al Arab localities.
- In White Nile, 525,486 IDPs are sheltering with host community members, in camps, and in public buildings across Ad Diwaim, Aj Jabalain, Al Gitaina, As Salam/Ar Rawat, Guli, Kosti, Rabak, Tendalti, and Um Rimta localities.
- In North Darfur, an estimated 512,472 displaced people are reported across Al Fasher, Al Koma, Al Lait, Al Malha, As Serief, At Tawisha, At Tina, Dar As Salam, Kebkabiya, Kelemendo, Kernoi, Kutum, Melit, Saraf Omra, Tawila, Um Baru, and Um Kadadah localities. There are increasing reports that displacement sites in the southern part of El Fasher town are overcrowded.
- In Sennar, an estimated 466,187 people displaced from Khartoum, Al Jazirah and Sennar are sheltering among the host community, informal settlements and in rented accommodation across Abu Hujar, Ad Dali, Ad Dinder, As Suki, Sennar, Sharg Sennar, and Sinja localities.
- In Central Darfur, an estimated 427,580 individuals are displaced from other areas in Central Darfur, West Darfur, South Darfur, North Darfur and Khartoum. IDPs are sheltering across Azum, Gharb Jabal Marrah, Shamal Jabal Marrah, Um Dukhun, Wadi Salih, Wasat Jabal Marrah, Mukjar and Zalingi localities.
- In Gedaref, an estimated 415,877 IDPs predominately displaced from Khartoum and Al Jazirah are sheltering across Al Butanah, Al Fao, Al Fashaga, Al Galabat Al Gharbyah-Kassab, Al Mafaza, Al Qureisha, Ar Rahad, Basundah, Gala'a An Nahal, Galabat Ash-Shargiah, Madeinat Al Gedaref, and Wasat Al Gedaref. Most IDPs are sheltering with host families and in rented accommodation.
- In Northern State, an estimated 402,220 IDPs, all reportedly displaced from Khartoum and Al Jazirah, are sheltering across Ad Dabbah, Al Burgaig, Al Golid, Delgo, Dongola, Halfa, and Merowe localities. The majority are living among the host community in informal hosting arrangements.
- In Al Jazirah, IOM DTM field teams report 349,439 IDPs predominately living among the host community but with a significant minority sheltering in public buildings across Al Hasahisa, Al Kamlin, Al Manaqil, Al Qurashi, Janub Aj Jazirah, Medani Al Kubra, Sharg Aj Jazirah, and Um Algura localities.
- In multiple states, displaced populations of fewer than 250,000 people were reported by IOM DTM. Affected states include: Red Sea (249,264 displaced individuals); Kassala (189,863 displaced individuals); West Darfur (169,770 displaced individuals); South Kordofan (162,892 displaced individuals); North Kordofan (148,607 displaced individuals); Blue Nile (134,276 displaced individuals); and, West Kordofan (137,516 displaced individuals). In most states outside Darfur, the majority of the IDP caseload originates from Khartoum state.
- People trapped in conflict zones continue to experience severe shortages of food, fuel, and water, amid dramatic increases in the prices of goods, and persistent electricity outages. An estimated 18 million people are facing acute food insecurity, including at least 13 million children, and food insecurity it projected to increase during the coming lean season.

#### **Medical Facilities:**

- The WHO Surveillance System for Attacks on Health Care (SSA) indicates that 62 attacks on health care have been reported since the onset of the violence on 15 April 2023, of which: 40 attacks impacted facilities; 25 attacks impacted personnel; 17 attacks impacted supplies; eight attacks impacted transport; eight attacks impacted patients; and, seven attacks impacted warehouses. The attacks resulted in 38 deaths and 45 injuries.

- An estimated 70%-80% of hospitals in conflict affected states remain non-functional because of ongoing attacks combined with insecurity, shortages of medical supplies, and lack of cash to meet operational costs and salaries.
- In addition to reports of cholera and dengue fever, the Federal Ministry of Health reported six identified cases of measles in South Darfur during the reporting period. Lack of vaccination remains a key challenge in mitigating risks of these diseases.

### Public Institutions:

Looting, occupation of and attacks on public institutions continued to be reported (this is not an exhaustive list and the data is based on available information):

- In Khartoum: Khartoum International Airport, Central Bank, Specialized Children Hospital, Fedail hospital, Bahri public market, Al Huda penitentiary, Kober Prison, Saudi Cultural Building, Maternity Hospital in Omdurman, Afra Mall, Islamic Solidarity Bank, United Capital Bank, Khartoum Industrial Zone, Omdurman market, Al Hawyaat Customs Station in Soba, Baraa Hospital for Children, Corps of Engineers, Bank of Khartoum HQ and branches, Souk Libya, Zakat Office in Jabra, Al Amal Hospital, Qarri Free Zone, Higher Academy for Strategic and Security Studies, Jabra Hospital, Ahmad Qasim Hospital, East Nile Hospital, Al-Baraka Bank, Episcopal Anglican Church, Al Ahfad University, Dar Alsalam courthouse, Khartoum courthouse, Land Registration Office, National Authority for Radio and Television, Saudi Sudanese Bank, Durra Medical Complex in Khartoum North, Al Oshara market, Al Ahfad University, El Neelain University, Chinese Hospital, Al Muwaliah market, Gold market, Al Neelain University, Al Haji Nour Al Shahid mosque, Al Taqwaa mosque, Haj Al Safi Teaching Hospital, Al Waladein Charitable Eye Hospital, Ministry of Minerals, Omdurman courthouse, Omdurman Technical High School, Al Noor Institute for People with Visual Impairment, Karari Supreme Court, Soba Hospital, University of Khartoum, Al Qabs School, Educational Hospital in Omdurman, Al Zahra Mosque, National Public Health Laboratory, National Medical Supply Funds Warehouse, Central Blood Bank, El Silah El Tibbi Hospital, Rakha Mosque, Alyaa Specialist Hospital, Blue Nile Hospital, Azirqab power station, Central market, International University of Africa, Tawila Hospital, Police House, Al Salam Center for Cardiac Surgery, Sudan Football Association, Ministry of Justice, Sudanese Standards and Meteorology Organization, Al Nao Hospital, Haj Saad mosque, Hala'ib market, Al Manarah water station, Zaqalonah market, Emtidad Nasr mosque, Evangelical Presbyterian church, Evangelical Church in Al-Qsr Street, Evangelical Peace College, Evangelical Church adjacent to Al Farouk Mosque, Evangelical Church Complex in El-Jeref west, Nile Theological College, Evangelical Church in Khartoum Bahri, Al-Jili Petroleum Refinery, MTN telecommunications infrastructure, Sudani telecommunications infrastructure, Military Hospital in Omdurman, Sufi mosque in Al Masid.
