Dear Rikke Jensen,

Re: Inquiry on the nationality of Tibetans

Further to our earlier reply on the question raised by the Danish Immigration Service, on whether Tibetans are considered to be Chinese citizens or whether UNHCR would consider this group of people as stateless, we hereby confirm that unless there are particular circumstances affecting the individual, all Tibetans are in UNHCR's view Chinese nationals.

As always, UNHCR remains ready to provide expert advice and technical support to the Danish authorities and we remain at your disposal for any question that may arise in this matter.

Yours sincerely,

Gisela Thater,

Snr. Regional Legal Officer
